

MMS-1

MOMENTARY RELEASING STATION

P/N: 18549

Features

- Dual Action Momentary Toggle Switch
- Flush or Surface Mount
- Mounts to Standard UL Listed 2-Gang Switch Box
- DPST Contact

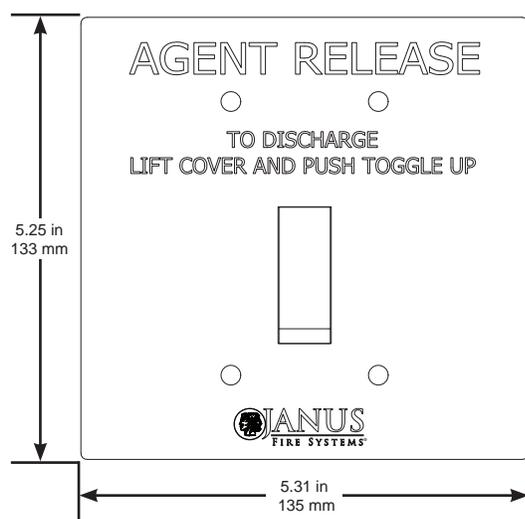

Description

The Janus Fire Systems® MMS-1 Momentary Releasing Station is utilized when a non-maintained manually initiated release of fire suppression agent is required. The manual release is achieved with a momentary toggle switch that is protected by a red toggle guard. A lead wire seal is provided for additional security to prevent accidental operation. The MMS-1 has a stainless steel faceplate with functional markings and mounts to a standard UL Listed 2-gang switch box.

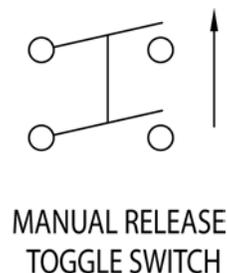

Operation

The MMS-1 is operated by breaking the lead wire seal, lifting the red toggle guard, and pushing the toggle switch up.
