Description

The Janus Fire Systems® LOS-4 Weatherproof Keyed Lock-Out Station provides a keyed method to disconnect and electrically lock-out the releasing circuit of a fire suppression system. The LOS-4 comes with a key that is removable only in the normal (I) position. The LOS-4 has an aluminum enclosure that is rated NEMA 4X for outdoor use. It ships with an operation instruction plate to be mounted above the station.

Operation

To lock-out, insert key and turn to locked-out position.
